I have asked him personally, and João de Deus has said „YES“ to my Essence.

„I say YES to my life plan“

In 2007 this statement changed my life on all levels. Based on this personal commitment not only the SoulGate-Essence was created, but also the annual „SoulGate-Event“ which draws more and more people to attend every year.

In 2012 I deepened my cosmic connection and since then have described this experience with the statement, „I take my place“.

This essence clears the mind and spirit and awakens our deep inner wisdom. Detached from the constant "have to" we become aware of the impulses that gradually lead us to our deeper being. It helps you to consciously live in the now. Mindfully, we are aware of the signs of our own inner wisdom.
